9 The Restoration to Life

By Norbert Lieth

Christians often allow themselves to be enslaved by their circumstances instead of relying on the power of Christ's strength. Against the contrasting background of death in sin, the Word of God shows us how God revives those who believe on His Son, Jesus Christ, and leads them to new life. Ephesians describes how hitherto spiritually dead people are revived and taken to heavenly places in Christ.

18 First Thessalonians 2 and the Rapture

By Dr. Ron J. Bigalke Jr.

In 1 Thessalonians 2:19-20, the Apostle Paul expressed the heart of a shepherd for his sheep. He demonstrated this care by referring to the church as his "hope or joy or crown of exultation." Paul demonstrated emphatically the great priority of the spiritual wellbeing of the church "in the presence of our Lord Jesus at His coming."

The False Prophet: Last and Final Economic Guru

By Wilfred Hahn

The Bible tells us that a time will come when commerce—the act of buying and selling—can be controlled worldwide.

The verses in Revelation 13 describing the "mark" and the "number" have been fodder for much speculation among Christians and nonbelievers alike. However, the most critical error concerns the identity of who it is that actually brings in these controls.
